INVESTMENT HIGHLIGHTS

2 Fully Permitted
Resource Stage Projects

January 2023 inaugural
Bralorne resource:

- . 1.63Moz inferred
at 6.3 g/t gold
- . 33,000oz indicated
at 8.9 g/t gold
- . Multi-Million Ounce
Potential

Well-Funded with Strong
Institutional Shareholder Base

World-Class Greenfields
Project Pipeline

Dominant Land Positions
in Top Mining Jurisdiction

Aggressive Explorer with Large
In-house Exploration Team

Talisker is a junior resource company involved in the exploration of gold projects in British Columbia, Canada. Our projects include two advanced stage projects, the Bralorne Gold Complex and the Ladner Gold Project, both advanced stage projects with significant exploration potential from historical high-grade producing gold mines.

We also control the Spences Bridge Project where the Company holds ~85% of the emerging Spences Bridge Gold Belt and several other early-stage Greenfields projects.

BRALORNE, OUR FLAGSHIP PROJECT

150,000 m Drilling Completed	86 Veins 63 veins open along strike and at depth
Shallow Resource from surface to 700 m depth	96% Average Metallurgical Recovery 65% Free Gold
5Moz+ Au Clear Pathway to beyond 5Moz+ Au	47 Historic Gold Occurrences on 33 km Trend
Consolidated 100% Owned 14,000 ha Brownfields Camp	Mineralization Confirmed to 2 km Depth

TALISKER RESOURCES PROJECTS

LADNER PROJECT

- 100% owned district-scale land package (approx. 144 sq. km), that consists of five historic mines, 24 known gold occurrences and numerous artisan mining activities since 1890
- 150 km east of Vancouver, BC and 18 km from Hope, BC. Politically mining-friendly jurisdiction and positive response from local community.
- Existing mine permit, covering tailings impoundment, mine site and mill site, and 5-year underground exploration permit received April 2017
- Existing infrastructure – extensive underground development, tailings facility, power and water available, easy 12-month road access from the Coquihalla Highway
